Liquidity, Alternative and Beta split

(at 30.03.12):

Liquid (lower volatility) assets (range 10%-50%)

These are assets that do not contain much credit risk, will not suffer huge volatility and can be easily disposed of to meet redemptions.

Cash		4.09%	4.09%
Government bonds			26.48%
	Conventional	13.61%	
	Index-Linked	12.87%	
High quality credit	(AA- or better)	0.00%	0.00%
			30.57%

Alternative assets (range 10%-60%)

Includes all those assets that demonstrate lower correlation in equity markets compared to beta assets, hence provide significant portfolio diversification. They can be divided into more liquid assets such as precious metals and less liquid assets, where the underlying asset remains less liquid even if the vehicle offers some liquidity such as bricks and mortar property.

David Coombs – Head of Multi Asset Investments, Fund Manager

David Coombs is head of multi asset investments at Rathbone Unit Trust Management, and joined Rathbones in April 2007. He is a member of the Strategic Asset Allocation Committee and the Collectives Research Committee.

He previously worked at Barings for 20 years where he established their absolute return investment process in the mid-90s. More recently he managed Barings range of multi asset funds. In addition he was responsible for a small number of segregated multi asset portfolios for institutional pension funds, charitable trusts, captive insurance companies and private clients based internationally. He joined Barings in 1988 from Hambros, where he managed multi asset portfolios for private clients. He is an Associate of the Chartered Institute of Bankers.

Elizabeth Savage – Assistant Fund Manager and Research Director

Elizabeth works alongside David Coombs as an Assistant Fund Manager on the Rathbone Total Return and Strategic Growth Portfolio's (as at August 2011) and as Research Director. She is responsible for fund selection and due diligence across a range of alternative investment strategies. She sits on the Collectives Research Committee

(and sub-committees) and on the Strategic Asset Allocation Committee. Elizabeth joined Rathbones in March 2005 to undertake independent research into funds of hedge funds and structured products after spending three years at Progressive Alternative Investments, as a hedge fund analyst. Elizabeth graduated from Newcastle University in 2001 with a degree in Geography and holds the Chartered Alternative Investment Analyst Designation and the Investment Management Certificate.

Investment objective

The fund seeks to achieve an increasing income and capital return through investment in a mix of assets to the extent that each is permitted by the FSA regulations. The fund targets a return equal to 2% above Sterling [six-month] London Interbank Offered Rate (LIBOR) over the long-term and a volatility rate equal to one third or below that of equity markets as measured by the MSCI World Equity index.

Further information

Copies of the Prospectus, the Key Investor Information Document (KIID), the Supplementary Information Document (SID), and application forms may be obtained, free of charge, from Rathbone Unit Trust Management Limited.

The use of derivatives for investment purposes may increase the volatility of a sub-fund's net asset value and may increase its risk profile.

Emerging markets are volatile and may suffer from liquidity problems. Changes in rates of exchange between currencies may cause the value of investments to decrease or increase.

Details of tax levels and reliefs may change in the future. The value of any tax relief depends on individual circumstances. If you have doubts about your tax position, or the suitability of this investment, you should seek professional advice.

As the Manager's annual fee is taken from capital, that capital may be eroded or growth restricted to the extent of the charge and that, while there may as a result be a reduction in liability for Capital Gains Tax, there will be some increase in Income Tax liability for tax paying shareholders.
